introduction to a yukon adventure

■ THE MODERN AUTOMOBILE traveller with a taste for adventure has a wonderful journey awaiting him along the Alaska Highway.

The 1,523-mile Highway winds its scenic way from Mile "0" at Dawson Creek, British Columbia, through Canada's storied Yukon to Fairbanks, Alaska, and it ranks high on the list of world renowned vacation routes. It passes through an exciting rugged frontier land, rich in natural beauty and remote from civilization. All but 300 miles of the road lies in Canada.

This unique trip will take you through a land of mystery and enchantment. You will see a densely forested Rocky Mountain region, and drive past silent, tree-lined lakes, along spruce and birch-clad river valleys offering scenes of breath-taking beauty. The whole region cut by the Highway is a sportman's paradise.

Fishermen find superb sport in the swift running streams and in the clear, icy northern lakes. You may stop along the way and try your luck with the elusive Arctic grayling, giant lake trout and rainbow trout; and in season the hunter will find moose, Dall sheep, bear and other big game in abundance.

Careful planning is the key to a successful and carefree vacation along the Alaska Highway. Schedule your trip for the period from June to October. At other times of the year you may experience extreme winter cold and during spring thaws driving is sometimes

uncomfortable and difficult for a pleasure trip. The road, however, is open all year long; and it is the finest all-weather gravel highway in Canada. As the Alaska Highway is not a paved road, dust conditions are bound to be encountered in dry weather. The road alignment, grades and sight distances are good and it is possible to average an ordinary day's driving on the Highway. You can also plan on having up to 20 hours of daylight in this part of the country during the summer period.

Mosquitoes and black flies may be encountered in some areas but if you carry a supply of some of the modern repellents the insects won't mar your trip in any way. It's best to remember, too, that nights in the northern mountain regions can be quite cool, even in midsummer, so if you're planning on camping along the Highway come prepared with a set of blankets and some warm clothing.

Accommodation, stores, meals, gas, oil and repairs are available along the entire route, and if you like to camp out there's plenty of opportunity, including campgrounds with cooking and other facilities.

Let's take a look at some of the exciting things to see along the Highway. At Fort Nelson, the road winds through the most northerly extension of the Rocky Mountain range, climbing to the highest point on the route at Summit Lake, Mile 392, where the elevation is 4,156 feet.

Hot springs bubble out of the ground in the vicinity of Toad River Gorge and the Liard River, nearly 500 miles north of Dawson Creek. Hence the Indian legend of "Paradise Valley", enshrouded in mystery and abundant with tropical flowers and vegetation.

If you're a camera enthusiast, take plenty of colour film, for the scenic splendour of the Alaska Highway is perhaps unsurpassed anywhere in the world. Views of exceptional beauty may be seen at Muncho Lake in the Canadian Rockies, Teslin Lake, Mile 804, which bears the Indian word for "long" and winds for many miles along the Highway. At Mile 1064 you will see the inspiring mountain scenery around Kluane Lake, largest in the Yukon, and just 20 miles from Haines Junction the Kathleen Lakes provide the setting for one of the most beautiful scenes in the Canadian Northwest.

Whitehorse, capital of the Yukon, Headquarters of the Northwest Highway System and communications and mining centre, combines the conveniences of a modern city with all the colour of a bustling frontier community. Visitors can see the unique Indian burial ground north of the city. Some of the graves are covered by small houses, in which dishes, tobacco, pipes and other items are often placed in the belief that the spirits might return.

In Whitehorse old sternwheeler steamships are sitting on wooden piles in a group along the river bank. These are the last survivors of the Gold Rush Flotilla and the once heavy water-borne commerce on the Yukon River from Whitehorse downstream to Dawson and beyond. Visitors, too, can see the MacBride Museum in the city which houses a good display of items collected from the Gold Rush period.

Just six miles south of Whitehorse a road leads from the Alaska Highway to Miles Canyon, an unusual slash in the earth, where the clear green waters of the Yukon River swirl past multi-coloured cliffs of volcanic rock which rise to heights of 125 feet and more.

A suspension bridge across the Canyon gives visitors a chance to view the rushing waters at close range. Construction of a hydro dam has considerably tamed the turbulent waters faced by the gold rush prospectors.

On the east side of the Canyon you can walk a scenic trail winding along the cliffs and follow the route of one of the most unusual tramways ever built. It was constructed in 1898 to transport supplies and equipment past the dangerous Canyon and Whitehorse Rapids, and was made entirely of wood. Wagonloads of miners' goods were transported by freight wagons which ran on wooden rails and were drawn by horses. Headquarters for this strange railway was Canyon City, built on a gentle backwater in the river just one mile above the Canyon, and the wooden rails were laid from Canyon City to Whitehorse—a distance of five miles. Traces of the rails can still be seen, and though little remains of Canyon City, you can still see the outlines of the buildings, and the rock piers of an extensive dock are still in place.

An alternate route from Whitehorse to the State of Alaska passes through Dawson City and is always a rewarding experience. The famed centre of the Klondike Gold Rush, it has many reminders of this earlier time. You'll see the Palace Grand Theatre, Robert Service's cabin and the Sternwheeler "Keno". You can visit the placer workings in the Klondike River Valley, or drive up the mountain known as "Midnight Dome" for a spectacular panoramic view of the region. The section of this highway from Whitehorse to Mayo and Dawson City is open year round but the stretch from Dawson City to the junction with

Alaska Highway No. 5 (Taylor Highway), is open during the summer months only.

In Dawson and Whitehorse visitors shop for such delightful handicraft items as delicate ivory carvings, jewelry fabricated from raw gold panned in nearby creeks, or unusual pieces of Indian beadwork.

The Alaska Highway has all the ingredients required for a memorable vacation—it's a journey that will take you to the top of the world.

alaska highway canadian section

■ CONSTRUCTION OF THE ALASKA HIGHWAY, once known as the Alcan Highway, began in March, 1942, as a military route and was completed in 1943. Its total length from Dawson Creek, British Columbia to Fairbanks, Alaska, is 1,523 miles, of which 1,221 miles are in Canada and 302 miles in Alaska. It is paved from Dawson Creek to approximately Mile 83. The remainder of the Highway has a gravelled, all-weather surface to the Yukon-Alaska Boundary. It ranks as one of the finest gravelled highways anywhere, and is open to travel throughout the year. It is administered and maintained by the Department of Public Works, from Headquarters located at Whitehorse, Yukon Territory.

The Alaska Highway through Canada commences at Dawson Creek, British Columbia (Mile 0.0) and enters Alaska at Mile 1221. Dawson Creek is the

terminus of a Branch of the Northern Alberta Railways (495 miles from Edmonton) and is also serviced by the Pacific Great Eastern Railway from North Vancouver (720 miles). Pacific Great Eastern's Northern Terminus is Fort St. John (at Milepost 49 Alaska Highway).

Motorists from the Pacific and Western States can drive through British Columbia over Highways 1 and 2 (97) and the John Hart Highway to Dawson Creek, a distance of approximately 748 miles from Vancouver. From Osoyoos, at the Washington State border, the distance is 761 miles.

The paved routes from Coutts (756 miles) or Carway (712 miles) Alberta, over Highways 2, 4, 16 and 43 to Dawson Creek are the better approaches for motorists from the Midwest States.

Paved highways through the Prairie Provinces via Winnipeg, Regina, Saskatoon and Edmonton offer more direct connections to motorists from the East and Central parts of the North American Continent.

border crossing information

■ **CROSSING THE U.S. - CANADIAN BORDER** either way is made without difficulty or delay by permanent residents of the U.S.A. They do not require passports. To assist officers of both nations, however, native-born U.S. citizens should carry identifying papers such as birth, baptismal or voter's certificate, driver's licence, or special letters. Other residents from the United States are advised to have either a Naturaliza-

tion Certificate or an Alien Registration Receipt Card. Motorists — Be sure to carry your car registration card.

Persons entering Canada with the intention of driving over the Alaska Highway should ensure that they have sufficient funds in cash, travellers' cheques, etc., to finance the trip. To help you decide the amount needed, estimate the overall driving distance and the length of time involved, expenses for gas and oil, food and lodging, and allow a reasonable sum for possible repairs.

Entry of Vehicles

Automobiles and trailers will be admitted without payment of any duty or fee under the usual Travelers' Vehicle Permits readily obtainable at border crossing points. These permits are good for any period up to six months. You should be sure to carry your Vehicle Registration Card. Commercial vehicles must be bonded.

Mobile two-way radio equipment installed in vehicles, pleasure boats, etc., or personally carried, must be licensed or otherwise authorized to be operated in Canada. Regulations and information may be obtained from the Director, Telecommunications and Electronics Branch, Department of Transport, Ottawa, Canada.

Baggage, Furniture and Equipment

You may bring into Canada, free of duty or deposit, personal belongings, sporting equipment, radios, musical instruments, still and moving picture cameras, film and flashbulbs in an amount which is considered to be reasonable and appropriate to the non-resident's

visit, typewriters for personal use, 50 cigars, 200 cigarettes, two pounds of tobacco, 40 ounces of alcoholic beverage, two days' food supply per person and gasoline not to exceed the normal tank capacity of the vehicle.

Foodstuffs for consumption in Canada in excess of the two days' allowance per person are subject to Customs assessment at the border port of entry. Additional quantities of consumable goods may be carried in transit to Alaska without payment of duty provided they are in containers which can be easily sealed by Customs officials at the port of entry.

Your household effects, tools of trade or items of merchandise not ordinarily considered as normal baggage may be brought in on a tourist permit and released without security, if they are carried to and from Alaska in your vehicle or in a small personally-owned trailer. The traveller should have an inventory of goods in triplicate.

Dogs originating in the United States may be admitted as personal baggage into Canada at any Customs port of entry if they are accompanied by a certificate signed by a licensed veterinarian of Canada or the United States certifying that the dog has been vaccinated against rabies during the preceding twelve months and the certificate includes a reasonably complete and legible description of the dog together with the date of vaccination.

Firearms — Fishing Tackle

A visitor does not require a Federal permit to possess rifles, shotguns or fishing tackle in Canada. He must, however, provide Customs with a description of such equipment and serial numbers of guns so that

the articles may be readily cleared upon leaving Canada.

Such permission does not give the right to hunt or fish. Specific laws in all provinces and the Yukon must be observed. Non-resident licences are required for the Yukon and each province where the visitor plans to hunt or fish. When rifles and shotguns are carried in transit, the visitor should ensure that he is familiar with the laws of the province through which he is travelling.

In British Columbia, non-residents may have firearms or fishing tackle in their possession while in transit either by private car or public conveyance without need of a licence or seal. In Alberta, rifles and shotguns carried in transit must remain stowed in the car at all times. Fifty (50) rounds of ammunition per person are admitted duty free.

Note

Under the provisions of the Customs Tariff Act and the Criminal Code of Canada which is administered by the provinces, revolvers, pistols and fully automatic weapons are prohibited importation by non-residents of Canada.

In the case of persons travelling to Alaska over the Alaska Highway and entering Canada through a Customs port in the provinces of British Columbia or Alberta, the Attorneys General of these provinces have consented to allow such weapons to be imported under Customs permit. This is conditional on the fact that the weapons are placed in a container capable of being sealed by Canadian Customs officials at the port of entry. If at the port of exit there is evidence that the seals have been tampered with, the firearms will be confiscated.

provincial approach roads

■ ALBERTA'S MAIN HIGHWAYS from the United States border and from the boundaries of Saskatchewan and British Columbia are paved. There are two direct approaches from Edmonton to Dawson Creek. The shorter route via Highways 16, 43, 34 and 2 is paved. The other approach (Highway 2) is paved to Westlock about fifty miles north of Edmonton.

The two principal approach roads through British Columbia from Vancouver and Osoyoos are paved to McLeod Lake (76 miles north of Prince George); from that point there is a well maintained gravel-surfaced highway for 122 miles, the remaining 57 miles to Dawson Creek is paved. These highways are in good condition in all seasons except when unusual weather prevails.

Current road reports for Alberta and British Columbia may be obtained from the Director, Alberta Government Travel Bureau, Highways Building, Edmonton, Alberta and from the British Columbia Government Travel Bureau, Parliament Buildings, Victoria, B.C., respectively.

special provincial trailer restrictions

■ THERE ARE NO TRAILER restrictions on Alberta highways except in certain National Parks.

In British Columbia maximum vehicle trailer overall length is 60 feet, width 8 feet, height 13 feet 6 inches. Maximum trailer length 40 feet. Upon entering the province permits for over-length, over-width or overlength - overwidth, may be obtained from the Department of Commercial Transport, Parliament Buildings, Victoria, or any Government Agent, motor-vehicle licence office or weight scale station.

A few steep grades will be encountered on the Alaska Highway, and travellers who plan to use house-trailers should make sure that the towing vehicle has adequate power to pull the load contemplated. The following may serve as a general guide:

- Trailers up to 22 feet in length—six cylinder car.
- Trailers 22-25 feet in length—eight cylinder car.
- Trailers 25-35 feet in length— $\frac{3}{4}$ ton pickup truck.
- Trailers 35 feet and over — 1 ton pickup truck.

If your motor vehicle - trailer combination is more than sixty feet long, eight wide or fourteen feet high, you must get a permit to travel over the Alaska Highway from the Department of Public Works, P.O. Box 2706, Whitehorse, Yukon Territory.

**vehicle load and dimension
regulations - alaska highway**

Maximum overall length	60 feet
Maximum overall width	8 feet
Maximum single axle load	18,000 lbs.
Maximum tandem axle load	32,000 lbs.
Maximum load, wheelbase 55 feet and over	73,300 lbs.

Vehicles exceeding these limits must obtain permits from the following Highway Offices:-

*Northwest Highway System
Headquarters,
Mile 918
Phone 8-2125*

*Dept. of Public Works,
P.O. Box 2706,
Whitehorse, Y.T.*

*Central Area Headquarters,
Mile 635
Phone 536-7303*

*Dept. of Public Works,
Watson Lake, Y.T.*

*Southern Area Headquarters,
Mile 295
Phone Office 8-2181
Residence 8-2446*

*Dept. of Public Works,
Fort Nelson, B.C.*

maximum speed limits on alaska highway

	<i>British Columbia</i>	<i>Yukon Territory</i>
Passenger Vehicles	50 miles per hr.	50 miles per hr.
Trucks	50 miles per hr.	50 miles per hr.
Camp areas	30 miles per hr.	30 miles per hr.
Passing road main- tenance equipment	30 miles per hr.	30 miles per hr.

cars with tubeless tires

■ MOTORISTS USING TUBELESS TIRES are advised to carry spare inner tubes while travelling the Alaska Highway. Should wheel rims become damaged inner tubes can then be used in the tires to continue the journey.

road conditions

■ APPROACH ROADS THROUGH the Provinces of Alberta and British Columbia as well as the Alaska Highway are being improved every year and most hazards of the journey have been eliminated. However, it is still a long journey.

Weather has a great influence on travelling conditions along the Alaska Highway. The following summary will give a general idea of seasonal conditions:

December – January – February

During these months snowfall usually averages from 10 to 15 inches a month, and the Highway is generally in good condition. Hard-packed snow provides smooth driving. Below-zero weather prevails at this time of year. Precautions should be taken to have necessary clothing for protection against such weather. Automobiles should be completely winterized to withstand 60° F. below-zero temperatures. Tire chains, tow-rope, shovel and means to produce fire should be brought along. A block heater is helpful for cold weather starting.

March – April – May

Melting snow creates icy conditions during March. Throughout the months of April and May the Highway is usually poor owing to spring thaws. During this period highway maintenance authorities may find it necessary to restrict travel in certain sections. This may involve short delays until repair work can be completed by maintenance crews. In such cases warn-

ing signs are prominently displayed. The motorist is advised to drive with extra caution during these months and to carry tire chains, tow-rope and shovel.

June – July – August – September

These months are the most favourable for motoring. The days are warm, with cool evenings. The road is well graded, although a long dry spell tends to make it dusty. It is suggested that a motorist travelling at this time carry a good spare tire, insect repellent and a basic set of car tools. It is also advisable that the underpart of the gasoline tank be protected with a piece of rubber tire or inner tube against flying gravel.

When heavy dust conditions are encountered, headlights should be used for better visibility, and tail lights should be kept dirt-free. Headlights should not be “blacked out” by use of cardboard or other material.

October – November

During October and November rain, light snow and frost cause slipperiness. Travellers should acquaint themselves with highway conditions. This information is usually posted at telephone repeater stations or highway maintenance camps en route and is broadcast over the CBC Yukon all year. Chains, a container of sand and a shovel should be carried.

Elsewhere in this booklet will be found charts showing average daily maximum and minimum temperatures also average monthly rainfall and snowfall along the Canadian section of the Highway.

Haines Highway

THE HAINES ROAD, 159 miles in length, connects the port of Haines, Alaska and its Alaska ferry terminus

with the Alaska Highway at Haines Junction (Mile 1016), 98 miles west of Whitehorse and is open to traffic during the summer period from June to October inclusive. The route is very scenic.

Whitehorse – Mayo – Dawson Highways

THE WHITEHORSE – MAYO – DAWSON route is divided into two sections. Both are good gravel roads open to traffic year round. Mayo Highway (Mile 0.0) commences at Mile 925, Alaska Highway and terminates at Keno (Mile 287). Mile 0.0 of the Dawson Highway is at Stewart River Crossing (Mile 213 Mayo Highway) and the distance to Dawson City is 113 miles.

Sixty Mile Road

THE HIGHWAY FROM DAWSON CITY northwest to the Alaska Border is open during the summer season only. At the border the Sixty Mile Road becomes the Taylor Highway and connects with the Alaska Highway at Tetlin Junction. The ferry across the Yukon River at Dawson City operates night and day throughout the summer months except between the hours of 6 and 7 a.m., 12 noon and 1 p.m., 6 and 7 p.m., and 12 midnight and one a.m. This route from Dawson City to the Alaska Highway has a magnificent setting and is generally referred to as the "Skyline Highway".

Canol Road

THE 146 MILES OF CANOL ROAD, from the Alaska Highway to Ross River, has been rebuilt but is suitable for summer automobile travel only.

It is a very interesting journey but there are no facilities whatsoever between the Alaska Highway and Ross River and only limited facilities at Ross River, i.e., one service station, small store, some accommodation.

telephone and telegraph services

■ CANADIAN NATIONAL TELECOMMUNICATIONS provides modern communication facilities from Mile 58 along the Alaska Highway to the Alaska-Yukon Border as well as serving the communities of Cassiar, B.C., Mayo, Dawson, Elsa, Calumet and Keno, Yukon Territory.

Twenty-four hour local and long distance telephone and telegraph facilities are available at all communities and at most highway stopping points. Roadside signs indicate service points.

British Columbia points have access to the world through the Fort Nelson Toll Centre, while Yukon Territory points are served through Whitehorse.

radio services

■ THROUGH ITS YUKON NETWORK, the Canadian Broadcasting Corporation provides a radio service that covers almost all the Territory. Its local stations can be picked up on your car radio as you travel along the Alaska Highway. The Network centre is CFWH Whitehorse broadcasting on a frequency of 570 kilocycles with a power output of 1,000 watts. Connected to it are eight (40-watt) unmanned radio stations in the Yukon and one in Northern British Columbia. Not connected to the Yukon Network, but carrying CBC National Network Service, is a low-power relay station at Fort Nelson, B.C., broadcasting on 1110 kilocycles. The Yukon Network stations, with their frequencies in kilocycles are:

Watson Lake	860
Cassiar	1340
Teslin	940
Whitehorse	570
Haines Junction	860
Destruction Bay	940
Beaver Creek	690
Mayo	1230
Elsa	560

The Yukon Network offers a full range of radio programming throughout the day and night. For details, see the schedules published in the Whitehorse Star, or write in advance of your visit to the Manager, Radio Station CFWH, Box 730, Whitehorse, Y.T. for a program guide.

Of special interest to motorists are the frequent broadcast of road-condition reports. During the summer months these form an important part of a program designed for Yukon visitors called "Trail of '65". Broadcast every weekday from 2:10 - 2:33 p.m., this program contains detailed highway and weather reports, interviews with tourists, tales of the Alaska Highway, the Klondike Gold Rush days, the stories about people and places in the Yukon of yesterday and today.

Visitors to the Yukon who plan to travel 'off the beaten track' and who are equipped with shortwave radios will want to tune in to the CBC's Northern Service shortwave broadcasts. Program schedules may be obtained by writing to the CBC Northern Service, Box 6000, Montréal, Québec. Letters from listeners to either the Yukon Network or the CBC's shortwave service with comments on reception and programs are always welcome.

bus services

■ CANADIAN COACHWAYS operate bus services from Edmonton, Alberta to Dawson Creek, British Columbia and over the Alaska Highway to Fairbanks, Alaska. A regular service from Whitehorse to Dawson City is also provided.

The White Pass & Yukon Route operate buses during the summer months from Whitehorse, Yukon, to Beaver Creek, Yukon, where connections are made with Alaska Highway Tours for Fairbanks, Alaska.

Greyhound Lines of Canada Limited service cities and towns from Winnipeg to the west coast. Their buses also make regular runs to Edmonton, Alberta, and Prince George, British Columbia. From Prince George, Northern Stages Limited operate regularly to Dawson Creek via the John Hart Highway.

Alaskan Coachways Limited, operate from Haines Alaska, to Haines Junction and along the Alaska Highway to Fairbanks and Anchorage.

Information concerning bus schedules may be obtained from Canadian Coachways Limited, 10805 - 120th Street, Edmonton, Alberta; Greyhound Lines of Canada Limited, 222 - 1st Avenue West, Calgary, Alberta; Northern Stages Limited, 1189 - 4th Avenue, Prince George, British Columbia; White Pass & Yukon Route, 508 Standard Building, 510 West Hastings, Vancouver 2, British Columbia; Alaska Highway Tours, Joseph Vance Building, Seattle 1, Washington; Alaskan Coachways Ltd., 120 E. Fifth Avenue, Anchorage, Alaska 99501.

railway service, whitehorse, y.t. – skagway, alaska

■ REGULAR RAILWAY service between Whitehorse and Skagway is provided by White Pass & Yukon Route. A “Family Package Plan”, which consists of transporting two people and their car between Skagway and Whitehorse (either way) for a total cost of \$65.00, is now in effect. Passengers and car travel on same train.

administration of natural resources

■ THE ADMINISTRATION of natural resources along the Alaska Highway falls within the jurisdiction of the various governments concerned.

Disposal of public lands in British Columbia is administered by the British Columbia Government representative at Pouce Coupe, British Columbia, or the Department of Lands, Forests and Water Resources, Victoria, British Columbia.

Territorial land in Yukon Territory may be disposed of by sale, lease, or licence of occupation. Application forms and additional information on land privileges may be obtained from the Commissioner of Yukon Territory at Whitehorse, or the Land Agents of Territorial Lands at Whitehorse, Dawson, Mayo, or Watson Lake, Yukon Territory, or from any Forestry Warden.

prospecting and mining

■ ANY PERSON over 18 years of age has the right, with certain reservations, to prospect and mine upon lands in Yukon Territory where the right to mine minerals has not yet been alienated from the Crown. The fee for recording a claim is \$10. Copies of the Yukon Quartz and Placer Mining Acts and other mining regulations may be obtained from the Mining Recorders at Whitehorse, Watson Lake, Dawson, or Mayo, or the Resources Division, Northern Administration Branch, Department of Northern Affairs and National Resources, Ottawa, Canada. Information concerning mineral regulations for that section of the Alaska Highway situated within British Columbia is available from the Department of Mines, Victoria, British Columbia.

business opportunities

■ PERSONS PLANNING to operate tourist camps, service stations, or other concessions along the Alaska Highway in Canada are reminded that the tourist business, particularly in this area, is a seasonal occupation. For additional information concerning business opportunities or licences in Yukon Territory, application should be made to the Commissioner of Yukon Territory at Whitehorse, Yukon Territory, or the Territorial Secretary at Whitehorse, Yukon Territory.

Similar information concerning business opportunities on sites in British Columbia may be obtained from the Department of Recreation and Conservation, Victoria, British Columbia.

Information about business opportunities and living conditions in Alaska may be obtained from the Division of Tourist and Economic Development, Department of Natural Resources, Juneau, Alaska.

Persons planning to operate bus or trucking services over the Alaska Highway must comply with provincial and territorial regulations. Application should be made to the Public Utilities Commission, Victoria, B.C., and to the Commissioner of Yukon Territory, Whitehorse, Yukon Territory, or to the Territorial Agent, Whitehorse, Yukon Territory.

There are also loading and clearance regulations which must be adhered to. Such regulations are published by the Commissioner of the Yukon Territory and detailed loading charts are available from the Department of Public Works, Whitehorse, Yukon Territory or the Canadian Government Travel Bureau,

Ottawa, Canada, and for other roads in the Territory from the Registrar of Motor Vehicles, Whitehorse. Information concerning bus or trucking services on the Alaska Highway in Alaska may be obtained from the Division of Highways, Department of Public Works, State of Alaska, P.O. Box 1361, Juneau, Alaska.

Motor vehicle operators desiring to become bonded carriers should make application to the Department of National Revenue, Customs and Excise Division, Ottawa, Canada.

fish and game regulations

■ FISHING AND HUNTING in the Yukon Territory are permitted under licence and during open seasons. Full information and up-to-date regulations may be obtained from the Fishery Officer, P.O. Box 2410, Whitehorse, Yukon Territory and Director of Game, P.O. Box 2029, Whitehorse, Yukon Territory. Non-residents must book hunts through a Registered Big Game Outfitter and hunters must be accompanied by a Registered Guide. Fishing licences are available at Royal Canadian Mounted Police detachments and at most lodges. Information and regulations applicable to British Columbia and Alberta are available from the Director, Fish & Game Branch, Department of Recreation and Conservation, 525 Fort Street, Victoria, British Columbia and the Fish and Wildlife Director, Department of Lands and Forests, Edmonton, Alberta.

topographical maps

■ TOPOGRAPHICAL MAPS — price 50 cents — may be obtained from the Map Distribution Office, Department of Mines and Technical Surveys, Ottawa, Canada or from the Resident Geologist, Department of Mines and Technical Surveys, Federal Building, Whitehorse, Yukon Territory.

gasoline, meals, accommodation

■ THE PRICE OF GASOLINE along the Alaska Highway ranges from 42 cents to 68 cents per gallon depending on the distance and cost of haulage from main distribution centres in Canada and Alaska. Motorists are reminded that gasoline stations in Canada use the Imperial measure, which is one-fifth greater than the United States measure; hence five Canadian gallons are equal to six U.S. gallons.

American gasoline credit cards are readily accepted at affiliated stations along the Highway. These stations are serviced by Standard Oil, Chevron, Imperial-Esso, B-A and Texaco.

Prices of accommodation and food compare with those in the U.S. and main sections of Canada. In the smaller lodges a room may be obtained for \$5 and \$7

per person per night, up to \$10 or \$12 for a double room at the larger inns and hotels. Breakfast, lunch and dinner may be purchased at prices ranging from \$1.75 to \$3.

Prices quoted above may be subject to change from time to time.

additional information

■ REQUESTS FOR ADDITIONAL INFORMATION concerning the section of the Alaska Highway in British Columbia should be addressed to the Department of Recreation and Conservation, Victoria, British Columbia, and for the part passing through Yukon Territory, to the Yukon Department of Travel and Publicity, P.O. Box 2703, Whitehorse, Yukon Territory.

Information about travel on the Alaska Highway within Alaska may be obtained from Division of Highways, Department of Public Works, State of Alaska, P.O. Box 1361, Juneau, Alaska.

roadside information

■ A LIST OF ACCOMMODATION, camp-grounds, lunch stops and roadside facilities along the Highway will be found on the following pages. Travellers cannot

expect assistance in matters of food or shelter from Northwest Highway System maintenance camps.

The Canadian Government has provided free camp-grounds and lunch stops along the Alaska Highway in the Yukon Territory. These facilities are intended for the convenience of travellers who carry their food and supplies. Parking areas are convenient to cooking and kitchen shelters. Each location has fireplace, tables, good water, toilets and available firewood. Camp-grounds have indoor cooking ranges.

The use of camp-ground buildings as sleeping quarters is strictly prohibited. Care should be taken to see that all campfires are out before leaving and travellers should report any fires to the local forestry warden.

If camping in the woods at other than organized sites in British Columbia it is necessary to obtain a permit from local fire or conservation officers before entering bush.

A Note to Canadians

who intend to travel on the Alaska Highway. Although the border regulations included in this booklet do not apply to Canadian citizens, they are advised to observe the precautionary measures designed to facilitate their journey.

Compiled by the Canadian Government Travel Bureau in co-operation with the Yukon Department of Travel and Publicity; the Department of Public Works, Customs Division, Department of National Revenue, Meteorological Branch, Department of Transport, Department of Citizenship and Immigration, and Canadian Broadcasting Corporation, Ottawa, Canada.
